Skills

Programming: Java

Frontend: HTML, CSS, JavaScript

Backend: Spring, Spring Boot, JDBC

Database: MySQL

Core: OOP, Data Structures and Algorithms

Projects

Agriculture Equipment Rental System | Java, HTML, CSS, JavaScript, MySQL Aug 2025 – Oct 2025

- Developed a web-based platform for renting agricultural equipment online.
- Implemented equipment listing, booking management, and authentication.
- Integrated MySQL database for equipment inventory and rental records.
- Built a responsive UI improving accessibility for farmers.

Medical Data Encryption for Patients Record | Python, HTML, CSS, MySQL Aug 2025 – Oct 2025

- Implemented encryption to secure sensitive patient medical records.
- Developed a secure patient record management system.
- Enhanced healthcare data privacy and access control.

Experience

TAP Academy

Software Intern

Feb 2026 – Present

Bangalore, India

- Developing full-stack applications using Java, Spring Boot, React, MySQL and REST APIs.
- Building scalable backend modules and authentication systems.
- Designing responsive React components for better usability.
- Integrating REST APIs with MySQL for efficient data processing.

Education

B.E in Computer Science

Jnanavikas Institute of Technology, CGPA 7.80

2022 – 2026

Bangalore, India

12th Higher Secondary

SRS PU College, 72%

2020 – 2022

Chitradurga, India

Secondary School Leaving Certificate

SIR M.V High School, 85%

2019 – 2020

Molakalmuru, India
